During MINSK 2019 Athletes' ongoing accreditation is conditional upon them not:

- Taking any sport equipment and/or national flag onto the podium and/or wearing sunglasses and headdresses during a Medal Ceremony;
- Making any kind of demonstration or promote political, religious or racial propaganda in any European Games Venue or associated areas during the period of the Games.

1.10. Late Athlete Replacement Policy (LAR)

The deadline for Sport Entries of participating athletes for MINSK 2019 is 20 May 2019.

However, where urgent medical problems arise, or in other exceptional circumstances that are assessed on a case-by-case basis, the EOC may permit permanent replacement of one athlete with another only in the same sport, discipline and event.

The NOC of the replacement athlete had successfully applied for accreditation of the athlete prior to 28 February 2019 (accreditation application deadline). As such, the replacement athlete was registered for MINSK 2019 in the NOC's Accreditation Long List.

During MINSK 2019, it is the policy of the EOC that P-accreditations are not available.

Replacement of an athlete can only occur after consultation with the relevant International Federation (IF) and/or European Federation (EF) and, when deemed necessary, by the EOC, an EOC medical expert.

All documentation and queries regarding this matter should be sent by email or submitted in person to the MEGOC Sport Entries department:

- In AVL – SIC;
- By email: entries@minsk2019.by.

The MEGOC Sport Entries Office will forward all received queries to the MEGOC Accreditation team and to the EOC accordingly.

For Non-Medical replacements, in order to keep changes to a manageable level and to support a sustainable level of resourcing within the MEGOC Sport Entries team, a limit on changes to an NOC delegation has been put in place.

Each NOC shall be allocated a quota for Non-Medical replacements based upon NOC overall number of athletes:

Number of Athletes	Quota for Non-Medical LAR
From 1 to 10	1
From 11 to 20	2
From 21 to 50	5
From 51 to 100	10
From 101 to 150	15
From 151+	20

The LAR policy is only applicable for those sports/disciplines in which the quota place is allocated to the NOC.

The LAR policy is not applicable to athlete nominative sport including Badminton.

In case of an injury, if the quota place is allocated to the athlete(s) by name and may not be changed by NOC, the quota place will be reallocated. BEC with MEGOC will reallocate quota places of injured athletes according to the reserve list established by BEC.

The deadline for this reallocation is 3 June 2019.

1.11. Doping Control

MEGOC is committed to delivering a world-class Doping Control Programme during MINSK 2019. Under the authority and direction of the EOC, the MEGOC Doping Control Programme will ensure the integrity of sport is upheld and protect the rights and health of the athletes. The BWF Anti-Doping Rules will be respected.

The EOC Medical & Anti-Doping Commission in collaboration with BEC is responsible for determining in advance the distribution and number of Doping Controls to be carried out throughout the Games period.

The EOC has the authority to test athletes for substances and doping methods (both urine and blood) prohibited by the World Anti-Doping Agency (WADA) anytime and anywhere from the date of arrival in AVL and up to the end of competition.

All analyses of samples will be performed at the WADA-accredited laboratory in Seibersdorf, Austria.

The selection of athletes may be targeted, random, based on the Athletes' final position in competition as well as intelligence or the BWF Anti-Doping Rules.

MEGOC has appointed the National Anti-Doping Agency of Belarus (NADA) as the operational delivery partner for the Doping Control Programme. As the operational delivery partner, it will be responsible for sample collection, secure chain of custody and analysis at the WADA-accredited laboratory.

Further details on the Doping Control Programme and procedures at the European Games will be available in the MINSK 2019 Doping Control Guide. Printed copies of the Guide will be distributed at the EOC Medical Commission Meeting.

If medical staff arrive after the due date, copies of the Guide can be collected at the AVL Polyclinic.

Athletes selected for Doping Control will be notified in person and escorted to the Doping Control Station (DCS) by a Doping Control chaperone as soon as possible after the former have finished competing. It is the responsibility of the athlete to remain under continuous observation of the Doping Control chaperone after notification. The notified athlete may invite a team representative or team doctor to DCS along with them.

6.5. The City of Minsk

Minsk is the capital of the Republic of Belarus. It is the largest city in the country populated by two (2) million people or every one in five inhabitants of Belarus. It is the administrative, economic, cultural, scientific and sports centre of the country.

6.5.1. Sights and Sites

Downtown

The historic centre of Minsk still has some majestic temples and monuments. If you want to feel the spirit of the old days, take a walk through the Freedom Square with architectural monuments of the 17-19th centuries stood the test of time, the Trinity and Rakovskoye suburbs, and narrow cobbled streets running in different directions from the historic centre. Every building here is a kind of a chapter of Minsk history.

The Minsk party scene is conveniently centred in the heart of the Old Town. To get a glimpse of the nightlife with its bars, live-music venues and nightclubs visitors should go straight to Zybityskaya Street that transforms into a giant street party on summer weekend nights.

Minsk visitors can enjoy lively bars and clubs to have some fun at night. Food and drinks are reasonably priced. Bars, clubs and discos are open till late in the morning, especially during weekends. Zybityskaya Street is the most famous street of night bars, clubs and discos.

Soviet Sights

Minsk is famous for its Soviet architecture. Many buildings along the Independence Avenue (Praspiekt Niezaliežnasci) are a vivid example of the Soviet times architecture forming an integral ensemble with peculiar style and

composition features. The 1950s architectural ensemble is the real gem of the Avenue and a candidate for the UNESCO World Heritage List. Most of Minsk attractions are located if not on the Avenue, then close to it.

Modern Minsk

Over the recent decades, the architectural style of Minsk has considerably changed with the construction of new administrative buildings, business centres, shopping malls, sports and entertainment centres, hotels, restaurants, and cafés.

National library of Belarus and Palace of Independence are among the most impressive buildings that has been constructed in recent decades in Minsk.

Another face of modern Minsk is Oktyabrskaya Street – one of the most popular and fancy places. Former industrial street has become one of the main leisure and party areas of the city. The red brick buildings of the late 19th – early 20th century, decorated with modern paintings, sit side by side with the numerous bars, cafés, exhibition halls, creative studios and workshops and offices.

Museums and Exhibitions

There are more than 20 museums in Minsk. The National Art Museum of Belarus is the cultural treasury of Belarus. The Museum's collection is one of the largest collections in Eastern Europe. There are more than 30,000 exhibits, including masterpieces of Belarusian and foreign art.

The National Historical Museum is among the most visited museums of Belarus. The museum houses the largest collection in Belarus with more than 400,000 items. Be sure to drop by to learn about the history of Belarus through the ages! Study its unique exhibits – valuable documents, early printed books, Slutsk belts, coins and medals, weapons, musical instruments and dinnerware – to trace the historical path of Belarus.

The Belarusian State Museum of the Great Patriotic War History is one of the largest world museums dedicated to World War II. The first items for its collection were picked up as early as 1942. The new building of the museum was opened in 2014 on the 70th anniversary of the liberation of Belarus and now houses more than 8,000 exhibits on 3,000m². The museum is situated on

Pobediteley Avenue near the Minsk-Hero City Stella and the Victory Park.

Theatres

Minsk is home to number of theatres, playhouses and concert halls that present some of the best local and, often, international productions. From world class ballets and musicals to experimental and original works, you will undoubtedly find a theatrical experience that suite your taste at one or more of these Minsk theatres listed below.

The National Academic Bolshoi Opera & Ballet Theatre of the Republic of Belarus is one of Europe's biggest theatres and the architectural landmark of Minsk. The theatre has a truly unique repertoire, made up of about 60 titles of operas and ballets of different epochs and styles. The theatre building makes a strong impression thanks to the perfect symmetry of the park around it, the statues on the pediment and the abundance of marble and crystal inside. It is better to purchase the tickets in advance as for all classical productions they are sold out quite quickly.

Janka Kupała National Academic Theatre has been preserving the best traditions of the Belarusian theatrical art for almost a hundred years, combining them with the search for new solutions and forms. The main place in the repertoire of the theatre is occupied by performances based on the works of Belarusian writers and playwrights. A visit to the Kupała Theatre can be recommended to those who appreciate the tradition, those who are looking for meaning in the theatre and not just entertainment, and to those who want to better understand the national culture.

Parks and Outdoor Activities

One crucial aspect of Minsk spatial organisation is the "Green Diametre" – several often-sprawling parks along the banks of the Svisloch River that cuts through Minsk from north-west to south-east.

The most picturesque parks of Minsk are Janka Kupała Park, with its landscaped paths and sculptures, the Central Children's Park named after Maxim Gorky, Chelyuskintsev Park, Park Complex "Loshitsa", Park Complex "Victory".

The Botanical Garden is worth to visit. It is one of the largest in Europe by total

area (about 100ha in the city) and by the richness of the collection, which has more than 10,000 plants from around the world. The greenhouse demonstrates exotic plants typical for different climatic zones of the planet. In the garden you can relax and switch off from the bustle of the city. The main entrance to the garden is from the Independence Avenue.

6.5.2. Getting Around and Public Transport

Minsk Metro has two (2) lines. The changing station is Kastryčnickaja/Kupalaŭskaja. Minsk metro services usually run from 5:30 to 0:40. One metro ride costs 0.65BYN (about 0.35€). You can use contactless card or mobile device to pay for the ride.

6.5.3. Cafés, Restaurants and Belarusian Cuisine

Minsk is full of places where you can try authentic Belarusian dishes, European and Asian cuisine – ranging from top-notch restaurants to charming casual cafés.

Cosy cafés and restaurants in the Belarusian national style offer a wide range of dishes prepared according to old recipes. Indispensable attributes of all dishes are truly Belarusian products – lard, mushrooms, cranberries and sauerkraut. It is believed that for the Belarusians potato dishes are the most important ones. The most popular is "draniki" – potato pancakes with sour cream.

Menus are available in Russian, Belarusian and English. You can pay by cash or credit card.

Some cafés feature live music in the evenings. Most cafés and restaurants are in the centre of Minsk.
