Once an application has been reviewed and approved, the Radio Equipment Frequency License will be issued by the Ministry of Industry and Information Technology of the People’s Republic of China to the user. Frequency must be used in accordance with the requirements indicated on the frequency license.

All users are encouraged to apply early due to the limited availability of radio resources within the venues. The approval rate is higher in the normal period of frequency application (from January 1 to June 15, 2021).

Period	Order Period	Frequency Approval Period	Description
Normal Period	January 1-June 15, 2021	Before October 15, 2021	Strongly recommend users to apply in this period. Spectrum applications received during this period will be processed for batch approval without prioritizing the time of application.
Cut-off	June 16-30, 2021		Data review
Late Period	July 1-November 30, 2021	Before January 15, 2022	The application process is based on first-come-first-served basis and there is no guarantee that the frequency of applications will be approved.
Cut-off	December 1-31, 2021		Data review
Extraordinary Application Period (Games time)	January 1-March 13, 2022	Games-time	Only spectrum requests under urgent circumstances will be eligible. Availability is low.

Testing and Tagging

After arriving in China, NOC users who have obtained the frequency license are required to take their radio equipment to the designated locations for testing by the technical agency designated by Beijing 2022. The agency staff will test the radio frequency parameters of the equipment to ensure that it matches the specifications outlined in the frequency license, and pasted a Special Tag for the equipment that passes the tests. Then, the radio equipment can be used strictly following the time and area requirements indicated on the Special Tag.

The specific time and location for testing and tagging will be published on the SOP.

Equipment Inspections at Venue Entry

All radio transmitting equipment shall be inspected for authorisation by security staff before entering the venues. Equipment without the Special Tag will not be allowed into the venues (except for the equipment exempted from testing and tagging specified in Section 4.1 of the Spectrum Management Plan). In order to avoid delay for entry, please make sure to complete the testing and tagging process before arriving at the venue entrance.

Interference

Radio monitoring will be conducted to identify and prevent interference and illegal use of unlicensed frequencies. In case of radio interference, please inform the venue staff in time and cooperate to identify and eliminate the interference. Meanwhile, it should also be emphasized that users shall avoid the unauthorised use of radio spectrum.

For more details, please refer to **the Spectrum Management Plan for the Beijing 2022 Olympic and Paralympic Winter Games** published on the official website of Beijing 2022.

Special note1: Cameras with wireless transmission modules (including 2.4GHz and 5.8GHz bands) should be regarded as “Wireless Camera”. Users shall submit frequency applications for those cameras, obtain the frequency licenses and have them tested and pasted with a Special Tag before entering the venues.

Special note2: Frequency applications are needed for using wireless routers and other radio transmitting equipment to set up WLAN access point (AP) in the venues. Those equipment can only be brought into the venues after they are issued a frequency license, tested by the designated agency and pasted a Special Tag. Except for special requirement, it is strongly recommended that users access WLAN network provided by Beijing 2022 or by public mobile communication

operators, and the frequency applications for private WLAN APs or hotspots may not be approved.

Special note3: After entering the Olympic venues and special control areas, public mobile communication terminals (mobile phones), wireless internet cards, laptops, and tablet computers shall not be used as wireless LAN hotspots; the Bluetooth function of wearable smart devices such as public mobile communication terminals (mobile phones), camera wireless remote-control devices, smart watches, smart bracelets, Bluetooth headsets, etc. shall be switched off.

Volunteer interpretation services in English will be provided upon request at the Doping Control Stations and Medical Stations, and over-the-phone interpretation in selected languages will be available via My 2022 App.

Professional interpreters provide interpretation services for official press conferences at the Main Media Centre, medal-round press conferences at the competition venues, IOC meetings, Chefs de Mission meetings either in consecutive or simultaneous modes depending on the demands and availability. Professional interpretation covers Chinese, French, Italian, German, Russian, Japanese and Korean using English as the pivot language. Volunteer interpretation, on the other hand, will utilise Chinese as the pivot language. The languages provided through both volunteers and professional interpreters vary by locations and clients and will be determined daily by Beijing 2022 Language Services taking into account the needs of key Olympic stakeholders and other Beijing 2022 Functional Areas.

Doping Control

General Principles

Beijing 2022 is committed to implement the doping control programme with high standard and quality. Under the direction of International Testing Agency (ITA) authorized by IOC, Beijing 2022 will ensure the doping control programme compliant with the World Anti-Doping Code so as to protect clean sports, clean athletes and athletes' right.

The International Testing Agency will develop the Test Distribution Plan and sign protocol with each IF. Samples of doping control will be analyzed according to the 2022 Prohibited List of the World Anti-Doping Agency (WADA) in WADA accredited anti-doping laboratory.

During the Olympic Winter Games, Doping Control Stations will be operating at all competition venues, 3 Olympic Villages and Medals Plazas. Doping Control Stations in the Olympic Villages are close to the Polyclinics.

Beijing 2022's testings start from the opening of the Olympic Village on January 27, 2022 until the closing ceremony on February 20, 2022. Urine and/or blood samples will be collected. Testings include In-Competition and Out-Of-Competition. In-Competition means the period commencing at 11:59 p.m. on the day before a competition in which the athlete is scheduled to participate through the end of such Competition and the sample collection process related to such competition. Out-Of-Competition means anytime that is not In-Competition. Out-Of-Competition testings start on the opening day of the Olympic Village and take place in the Doping Control Station in the Olympic Villages. If an athlete resides outside the Olympic Village, Out-Of-Competition testings may be implemented in the athlete's residence. What's more, some Out-Of-Competition testings may happen in the training venues. In-Competition testings often take place in the Doping Control Stations in competition venues. Athletes receive testings after their competitions. During the Games-time, Doping Control Command Centers will be set up to manage the operation of Doping Control Stations in the Olympic Villages, competition venues and Medals Plazas in 3 competition zones, and report technical issues directly to the ITA.

NOCs are encouraged to conduct anti-doping education sessions with their athletes, athlete support personnel and medical personnel prior to the Games.

NOCs are also encouraged to work with their National Anti-Doping Organization (NADO) and Regional Anti-Doping Organization (RADO) to ensure athletes are tested regularly, out-of-competition prior to the commencement of the Games.

Games-time Operations

Transport after doping control

Beijing 2022 will provide transportation for Athletes and NOC representatives who have undergone doping control from the competition venues to Olympic Villages (including non-shuttle bus hours).

If an athlete resides outside the Olympic Village, NOCs will be the one who is responsible to provide transportation bringing the athlete back to the accommodation.

Victory Ceremony for Athletes who have not completed doping control

If the medalist needs to participate the Victory Ceremony at the Medals Plaza and cannot complete the doping control process at the venue in sufficient time before the Victory Ceremony, he or she will be accompanied by a chaperon or a Doping Control Officer to complete the doping control process in the Doping Control Station at the Medals Plaza.

Interpreters during doping control process

Beijing 2022 will recruit local Doping Control Officers capable of communicating in English and international Doping Control Officers with multiple language skills to meet the language demand for doping control.

Athletes can also bring their designated interpreters, only one interpreter per athlete could have access to the Doping Control Station. The interpreter is allowed to participate the whole Doping Control process except for witnessing the urine sample provision.

In addition, Beijing 2022 can also provide on-site translation services or telephone interpretation services through the game's multilingual call centre when necessary.

Doping control under COVID-19

Beijing 2022 will formulate relevant countermeasures for doping control according to the actual situation of COVID-19 and the policies of IOC, ITA, WADA and Beijing 2022, and implement testings according to *WADA's Guidance for Testing During COVID-19 Pandemic*.

Security personnel are in place within the perimeters to provide security services for various client groups.

Multiple venues located within the same perimeter form a cluster that will be provided with 24-hour security. For venue clusters such as the venue cluster of Beijing Olympic Park Center Zone, the Capital Stadium Cluster, the venue cluster in Yanqing Competition Zone, the Genting Snow Park Cluster and Guyangshu Cluster, pedestrian and vehicle security screening points will be set at the entry of the cluster perimeter. To access venues in the cluster, all pedestrians must present valid tickets and passes and vehicles must present valid passes. The pedestrians and vehicles must go through ticket and/or pass check and security screening before they can enter the cluster perimeter. Then at each venue within the cluster perimeter, only tickets and passes will be checked and security screening will not be conducted anymore.

Transport and Security

The delegations will be provided with the “clean-to-clean” transport service between the Village Transport and the competition/training venues, which means that the bus that reaches the venue or Village will directly enter the venue security perimeter or Village Transport via the fast check channel (e.g. Express Entry) to park and drop off passengers.

If necessary, the Athlete will be evacuated from the FOP and transported to the Athlete Medical Station, designated hospitals or other facilities, as appropriate. Helicopter Emergency Medical Services will be available when required by the IFs rules.

NOC medical personnel are advised to attend a meeting with the relevant venue medical officer/venue medical supervisor during the first few days of the official training to establish the procedures, roles and responsibilities of the personnel.

Polyclinics

Polyclinics will be located in the Residential Zone of each Village, and will offer medical services to accredited Athletes and Team Officials from January 27 to February 23, 2022. Services will be limited during the Villages' pre-opening period from January 23 to 26, and from February 23 to 25, 2022.

Mixed Zones and Press Conferences

General Principles for Interview Facilities

The OCOG provides designated areas at all competition venues and the Olympic Village in which media organisations may interview Athletes and Officials.

At each competition venue these interview facilities include a Mixed Zone in which athletes may be interviewed as soon as they leave the FOP. A press conference area is also available at each competition venue and the Olympic Village.

The location and smooth running of these facilities is an important element in the success of the Games coverage.

IFs and NOCs provide all the necessary assistance to the IOC, the OCOG and OBS in the mutual interests of all the partners concerned.

The final location, layout, policies and procedures for the management and operation of all Mixed Zones are agreed by OBS and Press Operations in cooperation with Sport and the Venue Media Team and approved by the IOC.

Mixed Zone Operations

Mixed Zone General Principles

- An effective Mixed Zone is vital in providing Games-time operations for athletes and the media.
- In the Mixed Zone, the media are expected to be courteous to athletes experiencing extremes of emotion or fatigue following their competitions, while the athletes are expected to respect that the media have an important role to play in publicising their achievements and their sport.
- All athletes must pass through the Mixed Zone when leaving the Field of Play. They are encouraged to participate in interviews, however they are not obliged to answer questions or participate in interviews if they do not wish to do so. Athletes must keep two metres from the Media at all times in the Mixed Zone.
- Mixed Zone will be operational during all training sessions in the competition venues. The practice venues will operate under the same rules as during the competitions, that is, athletes must leave the Field of Play through the Mixed Zone but are not obliged to talk with the media.
- The IOC requests that the Beijing 2022, IFs and NOCs provide all the necessary assistance to ensure the smooth operation of the Mixed Zone.

Mixed Zone Management

- Beijing 2022 Sport FA is responsible for escorting athletes from the Field of Play to the entrance of the broadcast Mixed Zone, but not through the Mixed Zone.
- OBS and Press Operations are responsible for escorting athletes through their respective sections of the Mixed Zone.
- OBS is responsible for the Rights Holding Broadcasters' section of the Mixed Zone. Beijing 2022 Press Operations is responsible for the Press section of the Mixed Zone.
- Only those with an operational role in the Mixed Zone i.e., competing athletes, media, OBS, Mixed Zone supervisors, doping control, OIS flash quote reporters, IOC media operations, registered NOC press attachés and others are permitted into their respective areas of the Mixed Zone.
- Coaches of non-team sports, managers and/or individual athletes' agents, security, and volunteers are not permitted in any area of the Mixed Zone.

Press Conferences Operations

Press Conferences

- After each final event the medalists attend a venue press conference. Coaches and/or other athletes may also attend press conferences as circumstances dictate.
- Press Operations staff are responsible for conducting all press conferences at the competition venues. The press conference should occur as soon as possible after the end of the competition to help the media to meet their deadlines. This should not, however, interfere with normal Mixed Zone operations and timing should be adjusted accordingly to ensure this.
- Additional sports press conferences may be held at other times during the competitions at the discretion of the venue press manager and the NOC and/or IF media officer, who will jointly decide which athletes and coaches should attend.
- Professional interpretation services (simultaneous or consecutive) are provided for all press conferences.

Principles and COVID-19 Countermeasures

The Beijing 2022 Playbook is the basis of the game plan to ensure that all Olympic Winter Games participants and the people of China stay safe and healthy for the Games. It has been developed jointly by the Beijing 2022 and the IOC in close collaboration with the Chinese Government and relevant authorities.

Please refer to the Version 2 of *The Beijing 2022 Playbook* published on the official website of Beijing 2022 to acknowledge detailed policy on the Principles and COVID-19 Countermeasures for the Athletes and Team Officials:

<https://www.beijing2022.cn/sv1/wog.html?cmsid=20211213005851>

The Competition Continuity Contingency Plan will be updated to NOCs when confirmed by the IOC.
