The transportation services for the Gangwon 2024 Games will be operational from January 13th to February 3rd, 2024.

The Transport team will establish an efficient and convenient transportation environment by connecting official venues such as the Youth Olympic Villages, competition venues, and official stakeholder hotels. The Transport Services will be available for all accredited stakeholders participating in the Games when wearing the YOAC.

The Gangwon 2024 transportation system will primarily consist of regular and reliable shuttle bus services and will be divided into two types:

- **Common Shuttle Service(CSS)** : operating on pre-determined routes and timetables, accessible to all accredited YOG stakeholders and scheduled to support YOG schedule (training, competition, festival and working hours of YOG stakeholders); and
- **Pre-planned Service(PPS)** : operating on pre-determined routes and scheduled according to the specific operational needs of eligible YOG stakeholders.

To operate the transportation system efficiently, YOGOC will set up five Transport Malls in Gangneung (2), Pyeongchang (1), Jeongseon (1), and Hoengseong(1).

These Transport Malls will serve as transportation hub points connecting different Transport Services.

Please refer to the table next page for the locations and operating routes of each TRA Mall.

COMMON SHUTTLE SERVICE(CSS)

CSS is the main transportation for Gangwon 2024, connecting official accommodation and competition venues. It's divided into routes that circulate within a cluster and routes that connect different clusters:

- **Intra-Cluster** : The CSS routes circle Gangneung, Pyeongchang, and Jeongseon, interconnecting accommodations, competition venues and non-competition venues.

- **Inter-cluster routes** : The CSS routes connect;

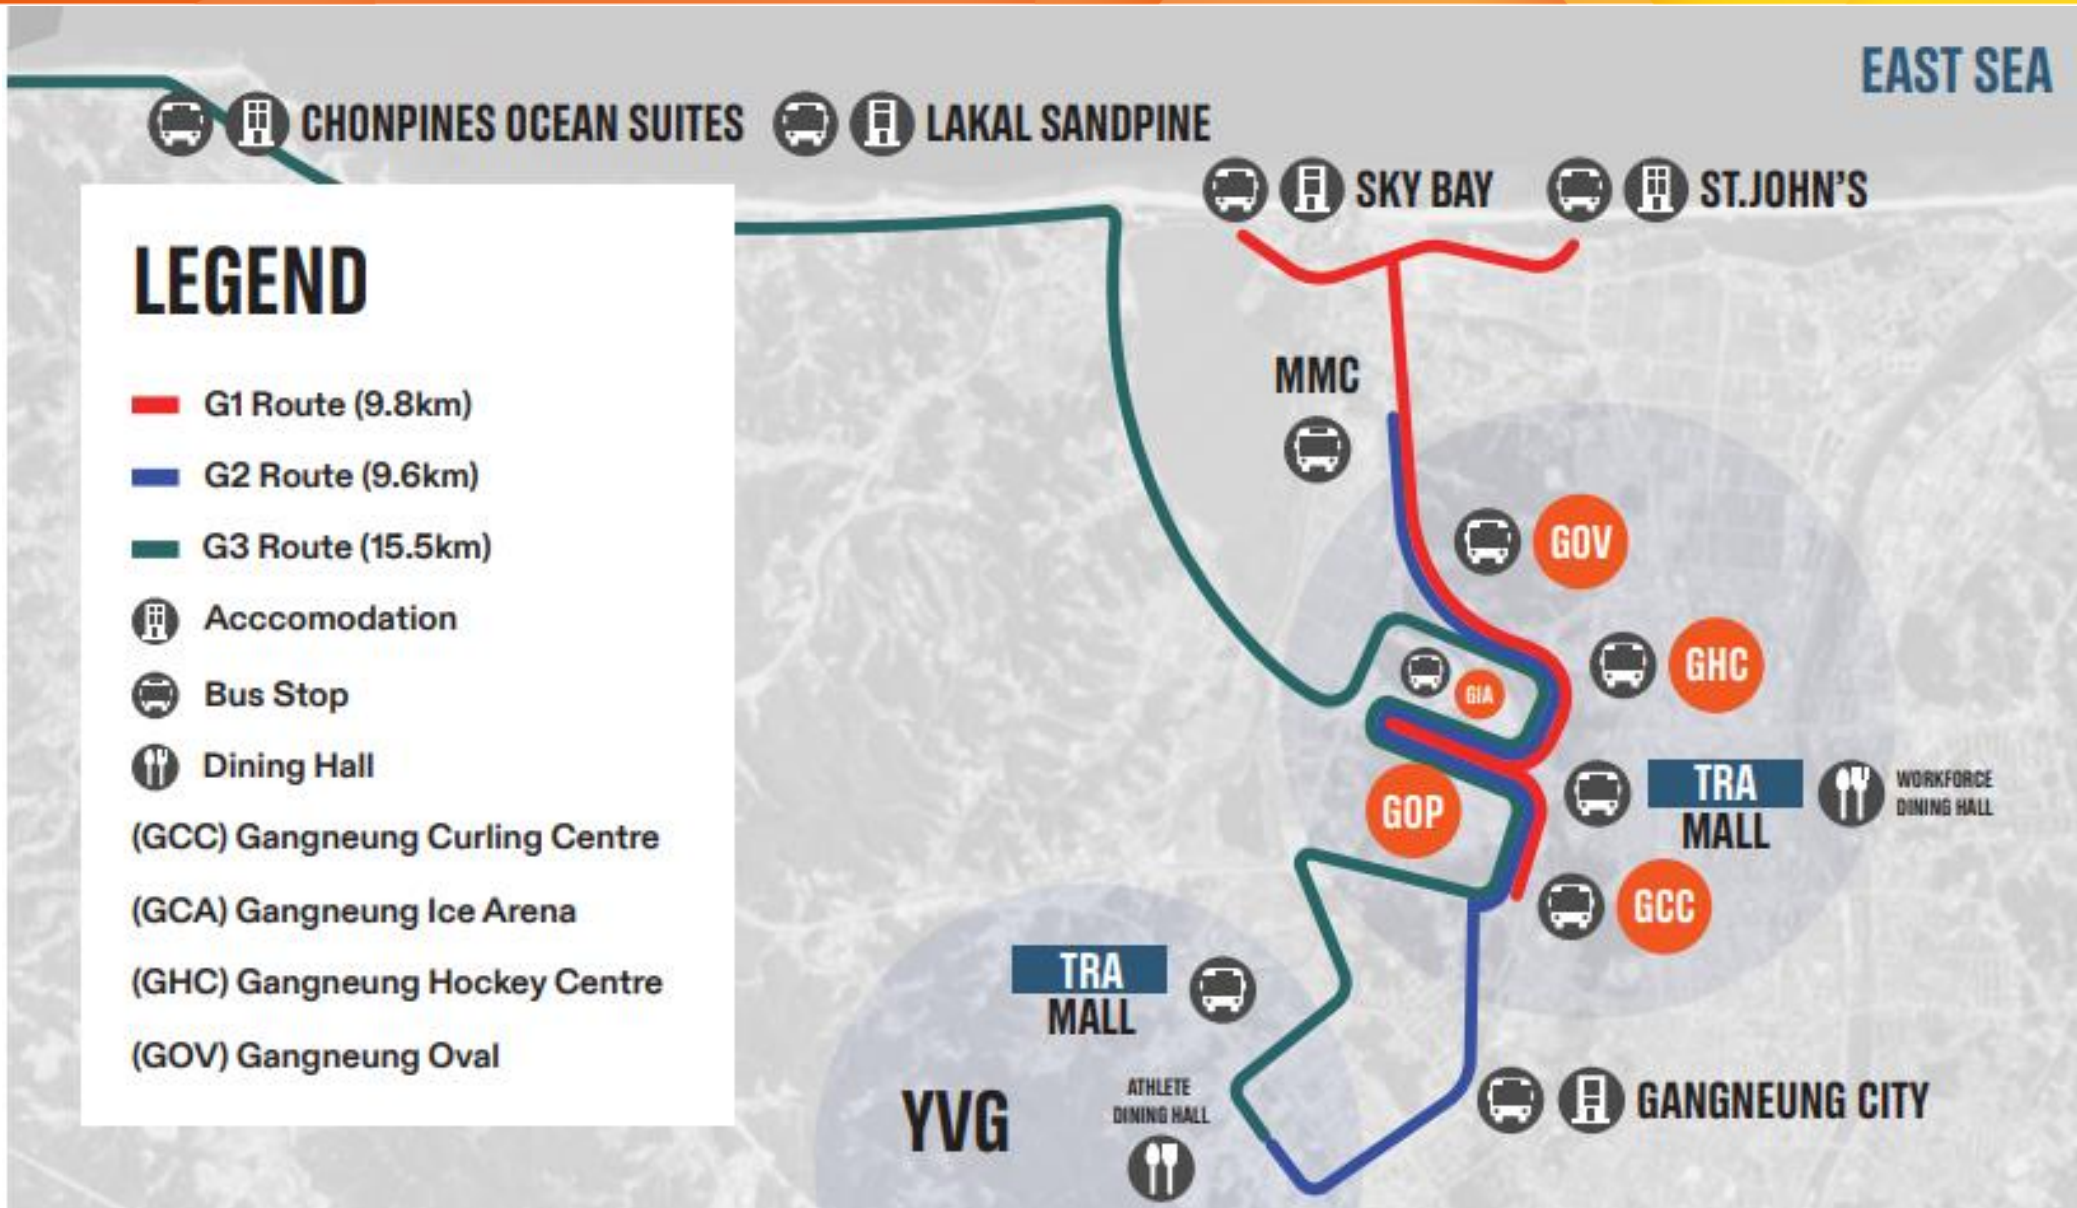

- Gangneung and PyeongChang;
- Gangneung and Hoengseong;
- Gangneung and Jeongseon;
- Pyeongchang and Jeongseon; and
- Pyeongchang and Hoengseong.

On the day of the opening ceremony (January 19th), all CSS bus operations will cease after 3PM and will be transitioned to transportation dedicated specifically for the opening ceremony. Detailed routes and schedules for the opening ceremony day will be announced at each accommodation and the Youth Olympic Villages(YOVs)

Accredited stakeholders can use these routes from the Transport Mall established in each cluster. Bus frequency, operating hours can be found on the following page.

* Please note that travel times may vary due to traffic conditions (commuting, heavy snow, etc.). Make sure to plan your travels with ample time to account for any potential delays!

PRE-PLANNED SERVICE(PPS)

The Pre-Planned Services (PPS), provide another efficient main transportation means for Gangwon 2024 stakeholders to a designated destination at an agreed time pursuant to the pre-determined schedule including competition schedule for athletes and team officials, the Opening Ceremony, Arrival and Departure (AND) services and other special events.

The PPS will be arranged to allow athletes and team officials to arrive at their respective competition venues prior to the start of their training and competition sessions. The PPS schedule has been confirmed through four demand surveys via each FA. Unplanned PPS schedule assignments are not possible.

If you need to request a change to an already assigned PPS schedule, please submit your request through the Sport Manager or the relevant Functional Area (FA).

The PPS priorities seats for athletes and team officials.

* Each FA is required to consult (request changes) with TRA at least one day(until 3pm) before the start of operations in case of PPS operational changes due to schedule adjustments.

Access and parking at the Gangwon 2024 Youth Olympic Villages and competition venues are very limited.

We recommend that all Stakeholders utilize the most reliable transportation system, which includes the CSS and PPS provided by the Gangwon 2024 transportation system.

Gangwon 2024 will provide limited parking spaces to those Stakeholder who are eligible and who have applied for a Vehicle Access Parking Permits (VAPP) for operational purposes only and to be used on an exceptional basis.

All vehicles accessing YOG competition venues and official parking areas, designated (P0, P1) must clearly display the VAPP issued by Gangwon 2024 to gain access.

On the day of the opening ceremony, only vehicles equipped with VAPPs designated for the event are allowed access to the opening ceremony (GOV, GHC). General VAPPs are prohibited from use in the GOP on that day.

VAPP Principles

- Stakeholders are provided VAPPs in accordance with the VAPP Policy.
- VAPPs are provided according to entitlement at no cost and cannot be purchased.
- VAPPs are applicable to cars and 9-seater mini vans only and not applicable to buses other than the CSS and PPS operations.
- The VAPP does not guarantee parking spaces and operates on a first-come, first-served basis.
- Only vehicles with the appropriate VAPP displayed are allowed access and parking authorization.
- The VAPP must be consistently displayed and prominently visible at all times during access control and parking periods.
